REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

City Commission
City of Pierre
Pierre, South Dakota

I have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of the City of Pierre, South Dakota, as December 31, 2008, and for the year then ended, which collectively comprise the City of Pierre's basic financial statements and have issued my report thereon dated June 24, 2009. My report was modified to include a reference to other auditors.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the "Housing and Redevelopment Commission of the City of Pierre, SD", as described in my report of the City of Pierre's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting on compliance or other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing my audit, I considered the City's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Pierre's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the governing board and information of the management of the City of Pierre and the South Dakota Legislature and is not intended to be and should not be used by anyone other than these specified parties. However, as required by SDLC 4-11-11 this report is a matter of public record and its distribution is not limited.

A handwritten signature in black ink, appearing to read "Amy I. Jensen". The signature is fluid and cursive, with the first name "Amy" and last name "Jensen" clearly legible, and "I." as a middle initial.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

City Commission
City of Pierre
Pierre, South Dakota

Compliance

I have audited the compliance of the City of Pierre, South Dakota, with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended December 31, 2008. The City of Pierre's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Current Audit Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Pierre's management. My responsibility is to express an opinion on the City of Pierre's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments and Non-profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Pierre's compliance with those requirements and performing such other procedures, as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the City of Pierre's compliance with those requirements.

The financial statements contained in this report include, as a component unit, the financial transactions of the Housing and Redevelopment Commission of the City of Pierre, which is a legally separate entity that is required by Governmental Accounting Standards Board Statement Number 14 to be included as part of the

financial reporting entity of the City of Pierre. The Housing and Redevelopment Commission fulfills its own audit requirements including single audit requirements, apart from those of the City of Pierre. I did not audit compliance applicable to any of the federal awards of the Housing and Redevelopment Commission, and, these federal awards are not included in the accompanying Schedule of Expenditures of Federal Awards for the City of Pierre. The Housing and Redevelopment Commission was audited in accordance with the requirements of OMB Circular A-133 by other auditors and their report on compliance with requirements applicable to each major program and internal control over compliance with respect to federal programs is contained in their separately issued single audit report on the Housing and Redevelopment Commission as of and for the year ended June 30, 2008.

My tests of compliance included tests relating to the use of Airport revenue and of the propriety of the disposition of airport funds or transfers to a sponsor. No instances of noncompliance of these requirements were noted. No funds were transferred out of the Airport Fund or otherwise paid to sponsors of the Airport Fund (which was the recipient of Airport Improvement grant funds in 2008).

In my opinion, the City of Pierre complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2008.

Internal Control over Compliance

The management of the City of Pierre is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the City of Pierre's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the City's internal control over compliance.

As discussed in paragraph three above, The Housing and Redevelopment Commission of the City of Pierre fulfills its own audit requirements, including single audit requirements, apart

from those of the City of Pierre. Accordingly, I did not perform tests of controls over compliance applicable to any of the federal awards of the Housing and Redevelopment Commission. My report on internal controls over compliance is limited to the legal entity known as the City of Pierre.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination or significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the governing board and management of the City of Pierre, the South Dakota Legislature and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties. However, as required by OMB Circular A-133 and SDCL 4-11-11, this report is a matter of public record and its distribution is not limited.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE PASSENGER FACILITY CHARGE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE

City Commission
City of Pierre
Pierre, South Dakota

Compliance

I have audited the compliance of the City of Pierre with the compliance requirements described in the Passenger Facility Charge Audit Guide for Public Agencies, issued by the Federal Aviation Administration (Guide), for its passenger facility charge program for the year ended December 31, 2008. Compliance with the requirements of laws and regulations applicable to its passenger facility charge program is the responsibility of the City of Pierre's management. My responsibility is to express an opinion the City of Pierre's compliance based on my audit.

I conducted my audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the Guide. Those standards and the Guide require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the passenger facility charge program occurred. An audit includes examining, on a test basis, evidence about the City of Pierre's compliance with those requirements and performing such other procedures, as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of the City of Pierre's compliance with those requirements. In my opinion, the City of Pierre complied, in all material respects, with the requirements referred to above that are applicable to its passenger facility charge program for the year ended December 31, 2008.

Internal Control Over Compliance

The management of the City of Pierre is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws and regulations applicable to the passenger facility charge program. In planning and performing my audit, I considered the City of Pierre's internal control over compliance with requirements that could have

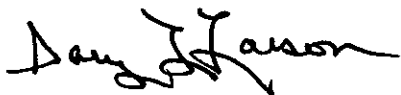

a direct and material effect on the passenger facility charge program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on the internal control over compliance in accordance with the Guide, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the City's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood, that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Federal Aviation Administration, The South Dakota Legislature, the governing board and management of the City of Pierre and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink, appearing to read "Doug Johnson". The signature is fluid and cursive, with a long horizontal stroke at the end.

INDEPENDENT AUDITOR'S REPORT

City Commission
City of Pierre
Pierre, South Dakota

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Pierre, South Dakota, as of December 31, 2008, and for the year then ended, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Pierre's management. My responsibility is to express opinions on these financial statements based on my audit. I did not audit the financial statements of the "Housing and Redevelopment Commission of the City of Pierre, SD", which represent 100% of the total assets as of June 30, 2008 and 100% of the total revenues for the year then ended of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose report has been furnished to me, and my opinions on the financial statements, insofar as they relate to the amounts included for the "Housing and Redevelopment Commission of the City of Pierre, SD" in the component unit column, are based on the report of the other auditors.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but, not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, I do not express such an opinion. Also an audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinions.

In my opinion, based on my audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit and each major fund, and the aggregate remaining fund information of the City of Pierre, South Dakota, at December 31, 2008, the respective changes in financial position and cash flows where applicable thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with the Government Auditing Standards, I have also issued my report dated June 24, 2009 on my consideration of the City of Pierre's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and to the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards and should be considered in assessing the results of my audit.

The City has not presented the Management's Discussion and Analysis nor budgetary comparison information that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

The OPEB Funding Progress information on page 73 is not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, I did not audit the information and express no opinion on it.

My audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the City of Pierre's financial statements taken as a whole. The Schedule of Expenditures of Federal Awards, which is required by the U. S. Office of Budget and Management Circular A-133, Audits of States, Local Governments and Non-profit Organizations and the Schedule of

expenditures of Passenger Facility Charges are not a required part of the basic financial statements of the City of Pierre. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

A handwritten signature in black ink, appearing to read "David L. Larson". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

CITY OF PIERRE
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET
ASSETS
DECEMBER 31, 2008

Total Fund Balances-Government Funds	\$13,834,649
--------------------------------------	--------------

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds	42,329,107
--	------------

Long-term liabilities, including bonds payable, capital leases payable and accrued leave payable and accrued other post-employment benefits are not due and payable in the current period and therefore are not reported in the funds	(12,420,301)
---	--------------

Property taxes receivable and special assessments are reported in the period to be financed by the property tax levy for both the governmental funds and the statement of net assets, but in the funds statement of net assets, "available" (within a 30 day period) are offset with deferred revenue	557,483
---	---------

Deferred charges on long-term debt is not recorded in the funds statement because it is on the modified accrual basis of accounting	96,604
---	--------

Internal service funds are used by management to charge the costs of activities, such as insurance, to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net assets	<u>1,329,021</u>
--	------------------

Net Assets-Governmental Funds	<u><u>\$45,726,563</u></u>
-------------------------------	----------------------------

The accompanying notes to financial statements are an integral part of this statement.

CITY OF PIERRE
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES
TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2008

Net Changes in Fund Balances-Total Governmental Funds	(\$338,616)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period	49,910
The net book value of equipment disposals is reported as a loss in the Statement of Activities, but not in the Funds Statement.	(84,252)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets	797,536
Property tax revenues and special assessments are reported in the period to be financed by the property tax levy or special assessments for both the governmental funds and the governmental activities, but in the funds statement, any amounts that are not "available" are offset with deferred revenue.	123,875
Governmental funds do not reflect the change in accrued leave, or other post-employment benefits but the statement of activities reflects the change in these liabilities through expenditures.	(164,834)
Proceeds of long-term debt are reported as revenues in the funds statements, but are liabilities in the Statement of Activities	(150,000)
Internal service funds are used by management to charge the costs of certain activities, such as insurance to individual funds. The net income of the internal service funds is reported with governmental activities.	(159,793)
Debt issue cost is deferred in the activities statement.	<u>(9,660)</u>
Change in Nets Assets of Governmental Activities	<u><u>\$64,166</u></u>

The accompanying notes to financial statements are an integral part of this statement.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Financial Reporting Entity:

The reporting entity of the City of Pierre consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The City is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the City (primary government). The City may also be financially accountable for another organization if that organization is fiscally dependent of the City.

Financial statements of the Housing and Redevelopment Commission of the City of Pierre, SD are discretely presented in the accompanying financial statements under "component units". This financial information is as of and for the year ended June 30, 2008.

The component unit is a governmental unit formed to provide low-income housing to residents of the City of Pierre.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The criteria for including the component unit in the financial reporting entity is that of control over the appointment of members of the governing board of the component unit. The City Commission appoints the board members of the component unit, thus having control over it. The City Commission has the statutory authority to approve or deny any proposed Commission housing Projects (SDCL 11-7-49 through 49.1, 11-7-53 and 11-7-78) and to approve or disapprove the Housing Commission's intent to issue long-term debt, by disapproving a proposed project to be so financed. (SDCL 11-7-53.2)

The component unit is reported using the accrual basis for accounting.

Separate financial statements for the component unit can be obtained from the City of Pierre Housing and Redevelopment Commission of Pierre, PO Box 937, Pierre South Dakota 57501.

The Housing and Redevelopment Commission's fiscal year end is June 30, 2008. The City has included the June 30, 2008 audit report financial information in the amounts it reports as a discretely presented component unit. No significant transactions between the City and the Housing and Redevelopment Commission have occurred.

The City participates in a cooperative unit for Exposition Building (Hughes County, Stanley County, and the City of Fort Pierre). See detailed Note 17 for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit, but are discussed in these notes because of the nature of their relationship with the City.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

b. Basis of Presentation:

Government-wide Statements:

The Statement of Net Assets and the Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity, except for fiduciary funds. The statements distinguish between the governmental and business-type activities and discretely presented component units. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Discretely presented component units are legally separate organizations that meet certain criteria, as described in note 1a above and may be classified as either governmental or business-type activities. See the discussion of individual component units in Note 1 above.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods and services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or it meets the following criteria:

1. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the funds operations.

The funds of the financial reporting entity are described below:

Governmental Funds:

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is always considered to be a major fund.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than trusts for individuals, private organizations or other governments or for major capital projects) that are legally restricted to expenditures for specified purposes.

Special Sales Tax Fund - to account for an additional one percent sales tax which may be used only for capital improvement, land acquisition, the funding of public ambulances and medical emergency response vehicles, public hospitals, or nonprofit hospitals with fifty or fewer licensed beds and other public health care facilities or nonprofit health care facilities with fifty or fewer beds, the transfer to the special 911 fund, the purchasing of fire fighting vehicles and equipment, and debt retirement. This is a major fund.

Capital Improvement Fund - a fund established by ordinance to account for a portion of the City's general sales tax (previously known as the 2nd Penny Sales Tax). Proceeds from this tax are to be used for land acquisition, street or other infrastructure improvements, firefighting vehicles and equipment and/or retiring capital improvement indebtedness for Governmental debt. This is a major fund.

The remaining Special Revenue Funds are reported in the aggregate in the Other Governmental Funds Column on the fund financial statements: E911 Fund, Library Fund, Police Pistol Range Fund and Cable Access Fund. These are not major funds.

Permanent Funds - Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs - that is for the benefit of the City and its citizenry.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cemetery Perpetual Care Fund - to account for the payments received for perpetual care of cemeteries which is permanently set aside and for which only the income from the trust fund investments is used for the care and maintenance of the cemetery (SDCL 9-32-18). This is not a major fund.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

TIF Funds - to account for the property taxes which may be used only for the payment of the applicable TIF Bonds. The City has one of these debt service funds (TIF #4). This is not a major fund.

PROPRIETARY FUNDS:

Enterprise Funds - enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expensed incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The business type activities and the enterprise funds do not apply any FASB Statements and Interpretations issued after November 30, 1989.

The City reports the following major enterprise funds:

Enterprise Funds:

Water Fund - financed primarily by user charges this fund accounts for the construction and operation of the municipal waterworks system and related facilities (SDCL 9-47-1).

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Electric Fund - to account for the construction and operation of the municipal electrical system and related facilities (SDCL 9-39-1 and 9-39-96).

Wastewater Fund - to account for the construction and operation of the municipal sewer system and related facilities (SDCL 9-48-2).

Airport Fund - to account for the acquisition, construction and operation of a municipal airport (SDCL 50-7-2).

Garbage Fund - to account for the collection and disposal of solid waste from the City (SDCL 9-32-11 and 34A-6).

Landfill Fund - to account for the construction and operation of landfill operation for the City.

Internal Services Funds - Internal Services Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the primary government and its component units or to other governments, on a cost-reimbursement basis. The Health Insurance Fund is the only internal service fund maintained by the City. Internal service funds are never considered to be major funds.

Fiduciary Funds:

Agency Funds - Agency funds are used to account for resources held by the City in a purely custodial capacity (assets equal liabilities). Since agency funds are custodial in nature they do not involve the measurement of results of operations. The majority of the Agency Funds account for the activity of the "Payroll Clearing Fund" and "Medical Reimbursement Clearing Fund". Agency funds are never considered to be major funds.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-wide Financial Statements:

In the government-wide Statement of Net Assets and Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements:

In the fund financial statements, the "current financial resources" measurement focus and the modified accruals basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary funds.

Basis of Accounting:

Government-wide Financial Statements:

In the government-wide Statement of Net Assets and Statement of Activities, governmental, business-type and component unit activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements:

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, and for the City of Pierre, the length of that cycle is 30 days. The revenues which are accrued at December 31, 2008 are sales tax, real estate taxes, state shared revenues and miscellaneous other revenues.

Expenditures are generally recognized when the related fund liability is incurred. Exceptions to this general rule include principle and interest on general long-term debt which are recognized when due.

All proprietary funds and fiduciary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified, as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net, residual amounts due between governmental and business-type activities, which are presented as Internal Balances.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2. In order to minimize the doubling-up effect on internal service fund activity, certain "centralized expenses" including employee health insurance, are charged as direct expenses to funds or programs in order to show all expenses that are associated with a service, program, department or fund. When expenses are charged, in this manner, expense reductions occur in the Internal Service Fund so that expenses are reported only in the function to which they relate.

Fund Financial Statements:

Noncurrent portions of long-term interfund receivables (reported in "Advance to" asset accounts) are equally offset by a fund balance reserve account which indicates that they do not constitute "available spendable resources" since they are not a component of net current assets. Current portions of interfund receivables (reported in "Due from" asset accounts) are considered "available spendable resources".

e. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for significantly greater number of years than most capital assets.

Infrastructure assets used in general government operations, consisting of certain improvements other than buildings, including roads, bridges, sidewalks, drainage systems and lighting systems, acquired prior to January 1, 1980, were not required to be capitalized by the City. Infrastructure assets acquired since January 1, 1980 are recorded at cost, and classified as "Improvements other than Buildings".

For governmental activities Capital Assets, construction-period interest is not capitalized, in

CITY OF PIERRE
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in government-wide of fund financial statements.

Government-wide Statements: All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant and which extend to useful life of a capital asset are also capitalized.

The total December 31, 2008 balance of capital assets for governmental activities includes approximately fifty percent for which the costs were determined by estimates of the original costs. The total December 31, 2008 balance of capital assets for business-type activities includes approximately ten percent for which costs were also estimates of the original cost. These estimated original costs were established by reviewing applicable historical costs of similar items and basing the estimations thereon.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Assets. Accumulated depreciation is reported on the government-wide Statement of Net Assets and on each proprietary fund's Statement of Net Assets/Balance Sheet. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land and land rights	\$ 0	N/A	N/A
Improvements other than buildings	5,000	Straight-line	10-25 years
Buildings	5,000	Straight-line	40-99 years
Machinery and Equipment	5,000	Straight-line	3-25 years
Infrastructure	5,000	Straight-line	25-50 years
Utilities property and improvements	5,000	Straight-line	10-50 years

Land, an inexhaustible capital asset, is not depreciated.

Fund Financial Statements: In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

f. Long-term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities consist primarily of compensated absences, revenue bonds payable and capital leases.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principle and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

g. Program Revenues:

Program revenues derive directly from the program itself or from parties other than the City's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for services - These arise from charges to customers, applicants, or others who purchase, use or directly benefit from the goods, services or privileges provided, or are otherwise directly affected by the services.
2. Program-specific operating grants and contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations or individuals that are restricted for use in a particular program.
3. Program-specific capital grants and contributions - These arise from mandatory and voluntary non-exchange transactions with other governments, organizations or individuals that are restricted for the acquisition of capital assets for use in a particular program.

h. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

i. Cash and Cash Equivalents:

The City pools the cash resources of its funds for cash management purpose. The proprietary funds essentially have access to the entire amount of their cash resources on demand. Accordingly, each proprietary fund's equity in the cash management pool is considered to be cash equivalents for the purpose of the Statement of Cash Flows.

j. Equity Classifications:

Government-wide Statements:

Equity is classified as net assets and is displayed in three components:

1. Invested in capital assets, net of related debt - Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisitions, construction or improvement of those assets.
2. Restricted net assets - Consists of net assets with constraints places on their use either by (a) external groups such as creditors, grantors, contributors or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and may distinguish between "Reserved" and "Unreserved" components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity (except for Agency Funds, which have no fund equity) is reported as net assets held in trust for other purposes.

k. Application of Net Assets:

It is the City's policy to first use restricted net assets, prior to the use of unrestricted net assets, when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

2. DEPOSITS AND INVESTMENTS, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The City follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below.

Deposits - The City deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 9-22-6, 9-22-6.1 and 9-22-6.2, and may be in the form of demand or time deposits.

Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by Federal Home Loan Banks accompanied by written evidence of

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK (continued)

that banks public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments - In general, SDCL 4-5-6 permits City funds to be invested in (a) securities of the United States and securities guaranteed by the United States government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) or (c) in shares of an open-end, no-load fund administered by an investment company whose only investments are in securities described in (a) and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires that investments shall be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated as its fiscal agent.

The amount reported as deposits and investments includes \$394,714 of the Landfill Fund which is being held in trust for the purpose of paying closure and postclosure costs relating to the City operated landfill. These assets are restricted as to use, and are not available to the City without prior approval of the State of South Dakota Department of Environment and Natural Resources.

The amount reported as deposits and investments also includes \$5,005,034 of the various funds restricted for debt service.

Custodial Credit Risk - Deposits - The risk that, in the event of a depository failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. As of December 31, 2008, the following City's deposits in financial institutions were exposed to custodial credit risk: American State Bank of Pierre total deposit \$165,588 (at risk is 2.49% or \$4,123.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK (continued)

Custodial Credit Risk - (Component Unit) - The Commission does not have a deposit policy for custodial risk. As of June 30, 2008, the Commission's deposits in financial institutions were not exposed to custodial credit risk.

Interest Rate Risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - State law limits eligible investments for the City, as discussed above. The City has no investment policy that would further limit its investment choices.

As of December 31, 2008, the City had the following investments. Except for the \$394,714, for the Landfill Fund, all the investments are in an internal deposit or investment pool. Other investments include bank certificates of deposit have over 90 day maturities.

<u>Investment</u>	<u>Credit Rating</u>	<u>Maturity</u>	<u>Fair Value</u>
U.S. Treasury Note	N/A	7-01-09	\$3,876,125
Mutual Funds:			
Goldman Sachs Financial Square			
Treasury Obligations	Aa	N/A	1,268
Advantage Government Fund	Unrated	N/A	2,264,947
TOTAL			<u>\$6,142,340</u>

Concentration of Credit Risk - The City places no limit on the amount that may be invested in any one issuer.

State law allows income from deposits and investment to be credited to either the General Fund or the fund making he investment. The City's policy is to credit all income from investments to the fund making the investment.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

3. RECEIVABLES AND PAYABLES

Certain receivables and liabilities are aggregated in these financial statements. See the following schedule of aggregated items:

	<u>Governmental Activities</u>	<u>Business Activities</u>
Aggregated receivables:		
Taxes receivable	\$ 33,665	\$ -
Accounts receivable	204,661	1,357,940
Special assessments:		
Current	45,841	-
Deferred	56,555	-
Due from other governments	689,987	-
	<u>\$1,030,709</u>	<u>\$1,357,980</u>
Other Current Liabilities:		
Amounts held for others	\$ 953,630	\$ -
Deferred revenue	-	20,771
Customer deposits	-	374,605
	<u>\$ 953,630</u>	<u>\$ 345,376</u>

The City expects all receivables to be collected within one year except for \$56,555 of deferred special assessments. These will be collected over several years.

4. INVENTORY

Inventory in the General Fund consists of expendable supplies held for consumption. Supply inventories are recorded at cost.

Inventory acquired for resale in the proprietary funds is recorded as an asset when acquired. The consumption of inventories held for resale is charged to expense as it is consumed. Inventories held for resale are recorded at the lower of cost or market, on the first-in, first-out cost flow assumption.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

4. INVENTORY (continued)

Government-wide Financial Statements:

In the government-wide financial statements, inventory is recorded as an asset at the time of purchase, and charged to expense as it is consumed.

Fund Financial Statements:

In the fund financial statements, inventory is recorded as an asset at the time of purchase, and charged to expense as it is consumed. Material supply inventories are off-set by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

5. DEFFERED REVENUE

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Reported deferred revenues are those where asset recognition criteria have been met but for which revenue recognition criteria have not been met.

6. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied on or before October 1 and payable in two installments on or before April 30 and October 31 of the following year.

The City is permitted by several state statutes to levy varying amounts of taxes per \$1,000 of taxable valuation on taxable real property in the City.

-------------------------	--------------------

11. RETIREMENT PLAN

All employees, except for part-time, participate in the South Dakota Retirement System (SDRS), a cost-sharing, multiple employer public employee retirement system established to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability and survivors' benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in South Dakota Codified Law 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the SDRS, P. O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

General employees are required by the state statute to contribute 6% of their salary to the plan, while public safety and judicial employees contribute at 8% and 9%, respectively. State statute also requires the employer to contribute an amount equal to the employee's contribution. State statute also requires the employer to make an additional contribution in the amount of 6.2% for any compensation exceeding the maximum taxable amount for social security for general employees only. The City's share of contributions to the SDRS for the fiscal years ended December 31, 2008, 2007, and 2006 were \$408,583, \$390,155 and \$312,678, respectively, equal to the required contributions each year.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

12. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

During the year ended December 31, 2008, the City managed its risks as follows:

Employee Health Insurance:

The City has established a group health self-insurance fund to pay for medical claims of city employees and their covered dependents. Payments to the fund are actuarially determined and are to cover individual claims up to \$25,000 and any administrative costs relative to the processing of the claims. Medical claims exceeding this amount are covered through a private insurance carrier, up to a maximum lifetime coverage of \$1,000,000. An estimated liability for claims incurred but not paid is accrued based upon the past experience of the plan.

Changes in the aggregate liabilities of the Group Health Insurance Fund during 2008 were as follows:

Benefit Claims Payable, at beginning of year	\$ 109,920
Employees Health and Related Benefits Incurred:	
Attributable to Insured Events of	
the Current Year	1,387,918
Employee Health and Related Benefits Paid	<u>(1,428,852)</u>
Benefit Claims Payable, end of year	<u>\$ 68,986</u>

Workmen's Compensation:

The City joined the South Dakota Municipal League Worker's Compensation Fund (Fund), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the Fund is to formulate, develop and administer, on behalf of the member organizations, a program of worker's compensation coverage, to obtain lower costs for that coverage, and to develop a comprehensive loss control

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

12. RISK MANAGEMENT (continued)

program. The City's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any worker's compensation claims. The City pays an annual premium, to provide worker's compensations coverage for its employees, under a retrospectively rated policy and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. Coverage limits are set by state statute.

The pool pays the first \$325,000 of any claim per individual. The pool has reinsurance which covers up to an additional \$1,675,000 per individual per incident.

The City does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

Liability:

The City joined the South Dakota Public Assurance Alliance (SDPAA), a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The objective of the SDPAA is to administer and provide risk management services and risk sharing facilities to the members and to defend and protect the members against liability, to advise members on loss control guidelines and procedures, and provide them with risk management services, loss control and risk reduction information and to obtain lower costs for that coverage. The City's responsibility is to promptly report to and cooperate with the SDPAA to resolve any incident which could result in a claim being made by or against the City. The City pays an annual premium, to provide liability coverage detailed below, under a claims-made policy and the premiums are accrued based on the ultimate cost of the experience to date of the SDPAA member, based on their exposure or type of coverage. The City pays an annual premium to the pool to provide coverage for automobiles and general liability. The agreement with the SDPAA Provides that the above coverages will be provided to a \$1,000,000 limit. Member premiums are used by the pool

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

12. RISK MANAGEMENT (continued)

for payment of claims and to pay for reinsurance for claims in excess of \$250,000 to the upper limit. A portion of the member premiums are also allocated to a cumulative reserve fund. The City would be eligible to receive a refund for a percentage of the amount allocated to the cumulative reserve fund on the following basis:

End of the City's first full year	50%
End of the City's second full year	60%
End of the City's third full year	70%
End of the City's fourth full year	80%
End of the City's fifth full year	90%
End of the City's sixth full year	
and thereafter	100%

As of December 31, 2008, the City has vested balance in the cumulative reserve fund of \$247,374.

The City carries a \$1,000 deductible for the automotive coverage and \$1,000 deductible for the general liability coverage.

The City does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Unemployment Benefits:

The City provides coverage for unemployment benefits by paying into the Unemployment Compensation Fund established by state law and managed by the State of South Dakota.

13. CLOSURE AND POST-CLOSURE CARE COST

State and Federal laws and regulations require the City to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

13. CLOSURE AND POSTCLOSURE CARE COST (continued)

closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and post-closure care costs as a operating expense in each period based on landfill capacity used as of each balance sheet date. The \$394,714 reported as landfills closure and post-closure care liability at December 31, 2008, represents the cumulative amount reported to date based on the use of 100 percent of the estimated capacity of the old landfill which was closed in 2003 and \$180,460 of the new landfill which opened in 2003. The new landfill closure and past closure costs were based on an estimated useful life of eighty-seven years with an annual deposit of \$30,092.

The City is required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care. The City has contributed \$394,714 to this trust as of December 31, 2008.

14. RESTRICTED NET ASSETS

The following table shows the net assets for other purposes as shown on the Statement of Net Assets:

<u>RESTRICTION</u>	<u>RESTRICTED BY</u>	<u>Amount</u>
Cemetery	Trust agreements	\$ 54,464
Debt Service	Debt Covenants	<u>5,005,034</u>
		<u>\$5,059,498</u>

15. POST EMPLOYMENT BENEFITS

Plan Description:

The City of Pierre's Postemployment Health Care Plan is a single-employer defined benefit healthcare plan which provides medical benefits to eligible retirees and their spouses. The Plan is authorized by SDCL 9-14-35 and SDCL 6-1-16 and is administered by the City of Pierre. The Plan does not issue a stand-alone financial report.

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

15. POST EMPLOYMENT BENEFITS (continued):

Funding Policy:

The contributions of plan members and the City are established by City policy. The required contribution is based on projected "pay-as-you-go" financing requirements, with an additional amount to prefund benefits as determined annually by the City. For 2008, the required contribution to the Plan was \$141,401. Since no contribution was made in 2008 the City accrued a liability of \$141,401, as of December 31, 2008.

Annual OPEB cost and Net OPEB Obligation:

The City's annual other postemployment benefit (OPEB) expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liability over a period not to exceed thirty years.

The following table shows the City's annual OPEB cost for the year, the amount actually contributed to the Plan and changes in the City's net OPEB obligation to the Plan.

Annual required contribution	\$141,401
Interest on net OPEB obligation	-
Adjustment to ARC	<u>-</u>
Annual OPEB Cost	141,401
Contribution made	<u>-</u>
Increase in net OPEB obligation	141,401
Net OPEB Obligation, Beginning of year	<u>-</u>
Net OPEB Obligation, End of year	<u>\$141,401</u>

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

15. POST EMPLOYMENT BENEFITS (continued):

The City's annual OPEB cost is \$141,401 for 2008, of which the pay-as-you-go cost was 44.7% of \$63,235.

Funded Status:

The Plan is on a "pay-as-you-go" basis, therefore it is not funded as of December 31, 2008.

Actuarial Assumptions:

The December 31, 2008 actuarial valuation was compiled using the "projected unit credit" actuarial cost method. The assumptions included a 4.5% rate of return (net of administrative expenses) and an annual health-care cost trend of 9% initially, grading to 5% over 8 years. The amortization period of the unfunded liability is 30 years.

16. SIGNIFICANT COMMITMENTS

The City has long-term contracts for the purchase of electrical energy with the Western Area Power Administration and the Missouri Basin Municipal Power Agency. These contracts expire December 31, 2020 and January 1, 2030, respectively. According to the terms of the contracts, the City is obligated to purchase all of its electrical energy from these two sources. No minimum purchase requirements have been established in the contracts.

17. EXPOSITION BUILDING

The City participates in an undivided interest, known as Exposition Building, which is a joint operation between the City of Pierre, Fort Pierre, Stanley and Hughes Counties for the construction and operation of a multiple use exposition building located at the Stanley County Fairgrounds in Fort Pierre, South Dakota. The primary use of the facility during winter months will be for hockey and multiple uses during other times of the year. Construction started in 1998 and was completed in 1999. Interest in the facility is as follows:

CITY OF PIERRE
NOTES TO FINANCIAL STATEMENTS

17. EXPOSITION BUILDING (continued)

City of Pierre	35%
City of Fort Pierre	15%
Hughes County	35%
Stanley County	15%

The City's interest in the facility as of December 31, 2008 is reported as a capital asset. Hughes County is acting in the capacity of fiscal agent during the construction of the facility and currently, while the City of Fort Pierre acted in the capacity of fiscal agent for parking lot storm sewer improvements. Financial statements for the joint operation are available from the Hughes County Finance Officer.

The joint operations governing board is composed of four representatives, one from each participating entity. The board is responsible for adopting the budget and setting service fees at a level adequate to fund the adopted budget.

At December 31, 2008 this joint operation had total fund equity of \$44,077.

18. SUBSEQUENT EVENTS

The City created "Tax Increment District Five" in April of 2008. In January of 2009, the City entered into a "Development Agreement" with a corporation whereby the City would pay for up to \$828,000 of public improvements pertaining to this development over a period of 15 years from completion of the project. The \$828,000 would be paid only from the tax incremental revenues received by the City due to the increased value of this property.
